### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The prior art has failed to suggest either singly or in combination a novel tip-up seat assembly. The applicant has disclosed the use of an interlocking means provided at the one side or both sides of a seat for preventing the seat from being moved forward unless the seat cushion is tipped up relative to the seat back and for allowing the seat to be moved forward when said seat cushion is tipped up; comprising: a restricting lever of a substantially inverted L-shape pivotally supported to a side of a corresponding movable rail having a first arm portion extending toward a bottom portion of a corresponding stationary rail, and a second arm portion extending rearward from an upper region of the first arm portion. A first spring means is stretched between the side of the movable rail and a restricting lever; while a vertically spaced apart upper and lower guide holes of substantially L-shapes are formed in a side bracket and disposed at portions of the side bracket which are lower than a portion of the side bracket in which an elongated hole is formed therein.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference Nos. 6,183,033, 6,059,345, 5,800,015, 5,158,338, and 5,529,378 show other tip-up seats.
